

Renewed Activity of German Submarines in British Waters and the Mediterranean

U-BOAT CONTROVERSY MAY BREAK OUT AGAIN.

Americans on Board the *Kelvinia*, Sunk by a Mine or a Torpedo.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)
WASHINGTON BUREAU OF THE TIMES, Sept. 6.—Whether the submarine controversy between Germany and the United States is to break out again in all its bitterness in the immediate future will depend on detailed information regarding the sinking of the British steamer *Kelvinia*, from Liverpool, which was sunk on August 15 from Newport News.

The sinking of the *Kelvinia* was reported to the State Department today by United States Consul McCune, who stated that the twenty-eight Americans on the boat were landed safely at Glasgow. No details were given as to the character of the attack, or the class of vessel in which it was immediately escaped. The vessel sailed on August 15 from Newport News.

It is stated that the *Kelvinia* was engaged in Admiralty service, for example, as a horse and mail carrier, and that the ship was used by a German submarine.

Secretary Lansing said that a prompt inquiry would be made with a view to ascertaining exactly what happened in the British steamer, and that the British government was making every effort to ascertain the facts.

*Ball Indorsed for Congress in
the Ninth District.*

Republicans Plan Wallop for Johnson at Convention.

County Central Committee will Organize Next Week.

Nearly 1000 politicians of the Ninth Congress District last night unanimously endorsed Charles W. Bell as an independent candidate to oppose the re-election of Congressman Randall. The action was exclusively forecast in The Times yesterday morning.

The meeting, which was held at Republican headquarters, No. 631 North Spring street, was attended by nearly as many Progressives as Republicans. Some of the Republicans admitted "it is a bitter pill to swallow—the endorsement of a Progressive—and they were reluctant to do so."

However, they accepted the argument that the only possible way to defeat Randall is for a coalition Republican and Progressive force.

ward situation if we had done real better before the last primary," said one Republican. "If we had done better there we will not permit anyone else Republican to run against a Progressive or the candidate of any other party, then we will be victorious in the Ninth District. We had three good Republicans in the fight. They divided the Republican vote fairly evenly and it was the most natural result that Randall should beat all of them.

"Randall is not a Republican. That can not be disputed. He is a Prohibitionist at heart and a Dem-

grain in a bush, and we recognize that we are not without our own exceptions in every Democratic III and was prominent in Democratic caucuses. We must have Republican representation in Congress. No district in the United States needs Republican legislation more than the Ninth. It is a relief to hear that there is a man who has a chance to win. I admit it is a bitter pill for some to swallow, but we must select a man who can draw from the Progressive wing as well as the Republican party."

Following this proclamation, John W. Wilson of Cambridge Springs

The meeting marked the first gathering in months of Republicans and Progressives assembled for a common purpose. Republicans could

to conceal their honest conviction. To be commingling with men who had done their best to distort and annihilate the Republican party was nauseating, but they declared there seemed to be a chance for two wings to get together and men that hope the Republicans were willing to concede a few points.

At one juncture a well-known Republican speaking for united efforts of the two wings said "it is even within the bounds of propriety for Republicans to vote for Hiram John-

The three Republican candidates, Laura Hahn, Loettner and Jennings, spoke freely. Each declared she would get behind the man, insured at the meeting. All agreed that the defeat of Randall is of

on the part of Republicans and Progressives.

BELL IS APPLAUDED.

Shortly after Bell was indorsed he was summoned from the Alexandria hotel. He was greeted with much enthusiasm and his speech was frequently interrupted by applause.

Mr. Bell thanked the assemblage for the honor bestowed upon him and said he will do all he can to win. He said, however, that he must have the united support of Republicans

Reorganization of Pacific-Alaska Steamship Company Includes Important Personal Advances. Yale and Harvard Now in New Fleet.

On September 1 the steamer Yale and Harvard passed into the hands of and became a portion of the fleet of the Pacific-Alaska Steamship Company and will be operated by this corporation in connection with the other ships of the fleet, thus establishing a direct line of steamship communication between Southern California and the most remote sections of Uncle Sam's northwestern possessions.

Several important changes have taken place in the personnel of the Pacific-Alaska Steamship Company through the extension of its territory of operations, and important additions to its fleet have already been made and are under acquisition. Principal among these personal changes is the advancement of R. J. Ringwood, who has within the last month received two important promotions. The first was his appointment as general manager of the company, and the second came on September 1, when Mr. Ringwood was again advanced from the position of general manager of the company to that of vice-president. Mr. Ringwood has been connected with the Pacific-Alaska Steamship Company from its first reorganization and has handled the greater portion of its traffic problems during the twelve years of the company's operations on the Pacific Coast. His zone of duty as vice-president will still cover the company's traffic operations.

Mr. Ringwood's appointment as vice-president takes effect on September 1, when he will be succeeded as general manager by Haines. GIANTS SPLIT WITH DODGERS

Brooklyn Drops into Second Place.

New York Takes First, Six to One.

Jimmy Johnston Responsible for Victory.

(BY A. P. SPORT WRITER.)
NEW YORK, Sept. 6.—New York and Brooklyn broke even on their double-header, the Giants winning the first, 4 to 1, and Brooklyn the second, 2 to 1. Benton had little trouble winning the first game, as Brooklyn played poorly. In the second game Johnston singled, stole second and scored on a double by Sten.

ONE RUN DECIDES MANY GAMES IN BASEBALL RACE.

BY HARRY A. WILLIAMS.

ONE RUN doesn't look to be of much importance, and on a season's play doesn't seem to be much larger than a fly speck on a pie crust.

Still that one run, considered collectively, and day after day, away the destinies of every league race.

Penalties are won and lost through the ability to grab that one necessary run, or the neglect to do so. In the

Cove League more than one-fourth of the games played, or 147, have been decided by the narrow margin of a single run.

And looking back over these games and analyzing them closely it can be seen where in a majority of cases the losing club passed up a chance to score that run in the early innings, which in the final count would have decided the result.

There is a common sight to see a ball team that gets away to a good start in the first couple of innings, and throw away chances to score right in the heat of a batting rally or the other team. It is that loss of a contest of this character that makes a manager want to turn executioner and shoot his ball team.

300 LOW SCORES.

All the games won or lost by one run are by no means low-score affairs, and in these games especially it can generally be shown where one of the clubs by being a little more alert on the bases in the earlier rounds could have reversed the result.

Vernon has figured in more games in which one run was the deciding element than any other club in the league with a total of sixty. Thirty times have the Hampdens been noted out, and on the same number of occasions have they beaten their opponents by the same slim margin.

San Francisco stands second in this respect, although having a larger percentage of wins. The Seals have won thirty-four games by one run, and dropped twenty-four by the same edge. Los Angeles has won twenty-nine and lost twenty-two for a total of fifty-one.

Los Angeles has engaged in fewer close combats than any team. This is easily explained by a slumping nature of the games which the Beas play on their home field. Monumental scores are the prevailing style in Salt Lake. Portland has played in harder luck than any other club, or has been more slothful, losing almost twice as many games by the slimmest margin of a single run than it has won.

Think what it would now mean for any of the contending clubs had they turned even a fourth more of

the closely-contested games into victories by a little more hustling or a trifle more care. The pennant race would not now be much of a matter of doubt.

Here are the figures of the games taken or dropped by virtue of a lone tally:

in great, but they themselves are not in the same fighting trim.

Banister is suffering from a spike wound in the forearm, and Kerner, a big factor in the last two series against Vernon, is smothered in the batting slump. The work of the pitchers generally took a turn for the worse in the north, while Jack Ryan, who batted two games in the last Los Angeles-Vernon series, is not showing the same dancing form that made him practically defeat-proof three weeks ago.

Chance will turn out two new faces, Schultz, a third baseman, direct from the major leagues, and Bobby Davis, who succeeds Butler. These changes may help the club eventually, but are of such recent origin as to impair the team work of the infield.

Hope are being taken to strengthen the Angels, but changes contemplated will necessarily come later, and the team will have to fight this week's battles as now constituted.

THURSDAY MORNING.

BISHOPS SIGN A LONG LEASE.

Deal Made with the Wholesale
Terminal Company.

Involves Three-quarters of a
Million Dollars.

One of the Largest Cracker
Concerns Extant.

Bishop & Co. have signed a \$750,000 lease in the new \$10,000,000 Wholesale Terminal at Seventh and Central avenues. Under the terms of this lease they will take over twenty years a section of the Wholesale Terminal building, with a frontage of 100 feet on Seventh street and 350 feet on a private paved street running through the terminal and an equal distance to the railway spur track system in the rear.

The lease calls for 175,000 square feet of floor space, made up of six floors and basement, and for the removal of the two plants of the concern from Seventh and Alameda to the Bishop and Alameda to the Wholesale Terminal. The building is to be ready for occupancy on August 1, 1917, at which time Bishop & Co. will be the lessees of one of the most modern confection, fruit and chocolate plants in the United States.

P. Bishop, W. T. Bishop and A. O. Knapp, who constitute the partnership, one of the largest in the United States, plan to expand their present capacity and increase the number of their employees to 100 persons.

THEIR PLANS.
W. T. Bishop last night outlined to his partners the plans, but also to the United States, plan to expand their present capacity and increase the number of their employees to 100 persons.

He said: "We plan to take advantage of the shipping facilities, which are becoming and growing rapidly, which will be offered by the Wholesale Terminal. Our intention is to consolidate the various concerns that the raw materials in our products can be lifted from the warehouse in the basement to the top floor, and from there to the street, where the preparation can be carried on until the ground floor is reached, where the outgoing shipments will be taken care of."

The baking and cooking departments will be on the sixth, fifth, fourth and third floors. The second floor will give room for the dining and restrooms. The first floor will be for the sale of the goods and general warehousing.

Our building faces 100 feet on Seventh street, 350 feet on one of the private streets, and occupies the same distance on the new track system, three sides of the building will be open to sunlight. We expect to operate our warehouse for employees, our own warehouse plant and our own warehouse plant.

WARDEN FOR EMPLOYEES.
An attractive feature is a roof garden, 100x100 feet, with plants, flowers and flowers, for our employees. The building will be equipped with elevators, spiral chutes, conveyors and all modern improvements.

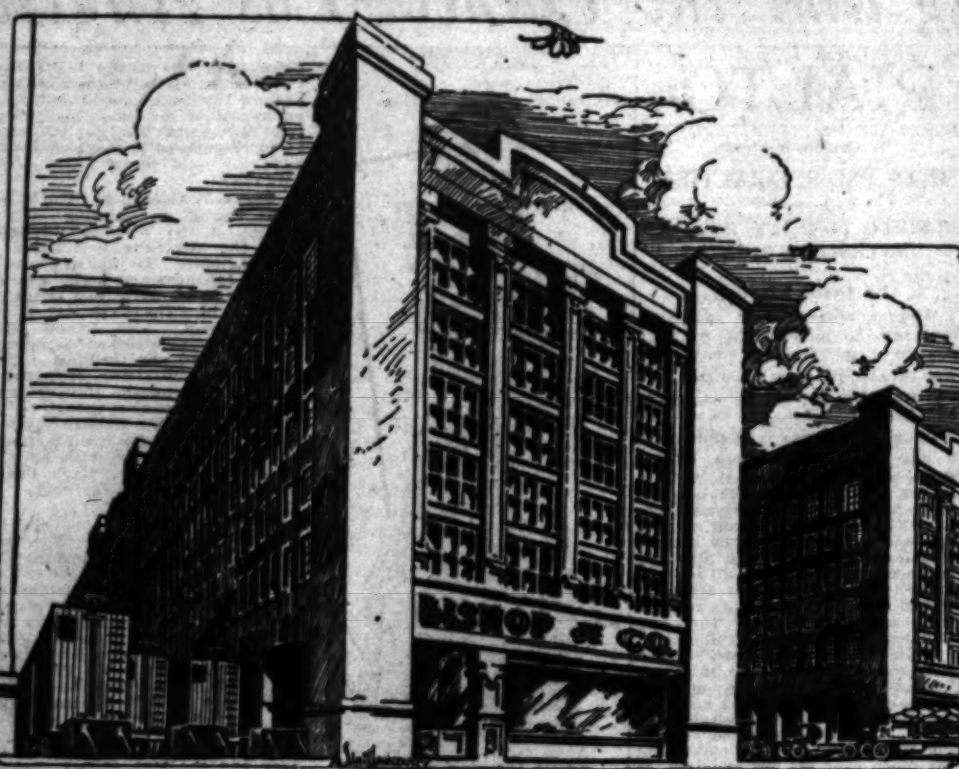

Under the cover of the United States flag, we sell some of the finest goods in the world. We sell some of the finest goods in the world. We sell some of the finest goods in the world.

Neighborhood.
The new building will give us a new lease on life. It will give us a new lease on life. It will give us a new lease on life.

RUINS FOR SLANDER.
The case of the slandering of the Bishop family has been settled. The Bishop family has been cleared of all charges of slander.

Words alleged to have been uttered in the presence of a committee, June 8, reflecting on the Bishop family, have been cleared of all charges of slander.

TRIAL OF FATHER AND SON CLOSING.

COUNTERFEITING CASE TO GO
TO THE JURY TODAY.

Also Pleaded as Service Man and
Practically Leaves His Offspring
in the Lurch with Characteristic
William Roy for Making
the "Queen" Money.

The trial of Edward and Charles de Zella, father and son, on the charge of having counterfeited tools in their possession, in the shape of negatives and plates, before a jury in United States District Judge Edward E. Cushman's court, closed yesterday and the charge will be delivered this morning.

The testimony for the defense was unusual, consisting of two character witnesses, and the evidence of the father, Edward de Zella. The son did not go on the witness stand.

The course of the case from the standpoint of the accused seemed to be to save the father, leaving the son to take his chances.

The testimony of the father indicated considerable bitterness against Secret Service Agent Hansen of the United States Treasury Department, who had worked up the testimony against the prisoners.

The old man promptly admitted that the boy had made the \$5 Indian head silver certificates, to be used in advertising in Mexico, he declared. So far as he was concerned, he knew nothing about the negatives or plates found at the West Fort-seventh place home on the morning of May 1, last, but said he did tell the boy to "ditch" them when Mr. Hansen, the assistant, Capt. William Walsh, searched the house.

The old man, who is 46 years of age, explained the business will copy of the \$5 bill in a pair of old pants, by saying that Mr. Hansen did not get the evidence there at all, but that it had been picked up by the landlord at the Alhambra house, given by him to Marshall Parker, of that city, who in turn turned it over to Mr. Hansen.

INVENTS WAX EXTRACTOR.
Local Dentist Devices Plan to Lessen Expense of Inlays.
Dr. William J. Brisius, a local dentist, has produced an ingenious device to be used in filling teeth. In the production of gold inlays for the teeth a wax impression is first made of the cavity and the gold inlay is then cut the exact size of this impression. The amount of gold used in these inlays is expensive.

Dr. Brisius's invention is a wax extractor, and by its means the impression can be cut away to lighten and cheapen the inlay. Graham & Harris, patent attorneys, state that a very broad patent has been granted Dr. Brisius on his invention.

HELD ON UGLY CHARGE.
Harry Hamann was held to the Superior Court by Justice Palmer yesterday in \$1000 bail. He is accused of a serious offense against Martha Base, a minor. It is alleged he promised to make her his wife, but subsequently married a San Bernardino girl. Miss Base was operated on at the County Hospital. When the case was previously called she refused to testify against Hamann. The examination was continued by the court until yesterday.

A Charming

and its perfect complexion is a soft, clear skin, free from blemishes, and it is a good skin treatment.

The Times completely overhauls and submerges every other newspaper in Los Angeles in the volume of classified and display advertising printed every month in the year. This is due to the undeniable fact that The Times gets its advertising patrons quicker and better results than any other local medium.

HUSBAND RELEASED. Wife Fails to Press Charge that He Stole Jewelry.

The charge of grand larceny against Robert Land was dismissed by Justice Forbes Tuesday on the motion of Asst. Dist. Atty. Cryer because the main witness against Land refused to testify. The complaint was sworn out by Mrs. Martha Land of No. 1104 South Kingsley drive.

She charged her husband with taking her jewelry from a place July 26 and going to Ventura. After her husband was arrested Mrs. Land decided she did not desire to press the case. They had been married three weeks when, she says, her husband left her.

ONLY ONE LIAR. Petitioner in Bankruptcy May Have to Pay as Much as \$100 in Costs.

A petition in bankruptcy was filed in the United States District Court, yesterday, by Edward Kent Potter, who alleges he is a clerk, with debts amounting to \$100.00, and assets of \$10, all claimed as exempt under the law.

The sole item of indebtedness is a note given August 15, 1914, in favor of S. R. Cuthbert, on a claim assigned by Dr. Moore, for \$70, which, with interest, attorney fees and costs, makes up the \$100.00. The fee of \$30 paid for filing the petition, with the fees of the referee in bankruptcy, cost of printing notices, fees of attorney and other costs will aggregate nearly as much as the bill.

"Tis An Old Saying"

that the best advertisement any firm can have is a well satisfied customer. We present today a proof of this saying.

The picture is of Mr. J. Frank Burns, our old friend and patron, who has dealt steadily with us for the past fifty years.

Mr. Burns arrived in Los Angeles during the Fall of 1853, crossing the plains via the Salt Lake route, and is well known to all old pioneers as a man of high integrity and splendid ideals.

He was County Superintendent of Schools in this county during 1856. He was elected as Sheriff of this county in 1867 and served four years. He was head of the detective force of the Santa Fe Railroad for thirteen years.

Mr. Burns is now eighty-five years of age and only the other day we again dressed him up in his new Fall suit as shown by the picture here illustrated.

Mr. Burns is proud of his new clothes and we are proud to have had and held his friendship all these years.

Our new Fall style in suits and overcoats are now ready. \$15 to \$50

GIVE PLEDGES TO AID HARBOR.

Angeleno Business Men See Long Beach Grow.

Dr. Walker is Considering Portland Pastorate.

Fraternities are Barred from Ruling Athletics.

LONG BEACH, Sept. 6.—Co-

operation of Los Angeles business

men in the development of the har-

bor was pledged at today's meet-

ing of the Long Beach Club, Pres-

ident Harold J. Jans, of the Los An-

geles Ad Club, in a ringing speech

which expressed the surprise of the

visitors at the wonderful develop-

ment of the harbor, stated that the

three members of the Ad Club of

the harbor would co-operate with

the local club in the campaign to

carry the harbor bonds at the

election October 4.

Today's diversified events, under

the auspices of the local Ad Club,

were for the purpose of acquaint-

ing the really men of outside cities

with the harbor situation here. The

trip from the pier to the harbor

district by boat was an eye-opener

to the visitors, they said.

There was such a large crowd of

visitors and local members of the

club that two steamers, the Music

and the Fashion, were engaged to

take them to the harbor. The

visitors were shown the submarine

and the light house in course of

building, the five tuna canneries,

the potato plants, the million-dollar

electric plant and other industrial

enterprises.

On the return a luncheon was en-

joyed at Hotel de Luxe, D. W. Mc-

Garry, vice-president of the Los An-

geles Ad Club, spoke for his

organization, Gene Webb, Dr. L. B.

Crutcher and President Richards of

the local club also spoke, the lat-

ter singing the anthem of all in

passing the harbor bonds.

WALKER CONSIDERS.

Dr. Hugh K. Walker, pastor of the

First Presbyterian Church, may

leave this city for a pastorate in

Portland, Ore. Thus the city will

lose another popular pastor, the

redemption of Dr. Ramus of the

First Methodist Church already hav-

ing been accepted.

Dr. Walker states that he is con-

sidering the offer and will shortly

visit Portland to determine whether

PASADENA SELLS ITS WALNUT CROP.

(LOCAL CORRESPONDENCE.)

PASADENA, Sept. 6.—Pasadena

has sold the English walnut crop

on the trees at the City Farm for 15

cents a pound. The price received

last year was 14 cents. The crop

is smaller this year than last, but

there is no blight and the nuts are

better. The purchasers were Joseph

Finney & Son, independent fruit buy-

ers. They supply the socks, hats

and the nuts and separate them

into culls and orchard run. City

Commissioner Loughery, who is in

charge of the farm, says the nuts

this year are of fine quality, due

largely to the fact that there was

no late summer irrigation.

PUBLIC LIBRARY.

Plans have been drawn for a new

public library building, which prob-

ably will be the nucleus for a civic

center. No definite action will be

taken until President Kleinhof of the

City Beautiful Association re-

turns from the city. He is expected

back in about a week. The mem-

bers of the association plan a civic

center on the lot bounded by Har-

mond avenue, Walnut street, Mar-

engo avenue and Holly street.
